

# D Major Scale

# Guitar 101

Lesson 11

In Lesson 3 you learned the position numbered 1 thru 8 (shown above)

Highlighted in Red is another position for the D Major scale.

In an earlier lesson patterns were discussed.

The D Scale diagram(s) shown above are two distinctly different patterns, both containing the same notes as the other.

Learning to transition from pattern to pattern within the same scale will take you out of your comfort zone, yes...but it allows you more freedom to broaden your perspective.
